

ERDI Shape and straight cutting snips D39ASS

**Rugged build and less Friction
when used in Test Conditions**

Simply better.

The Shape and straight cutting snips D39ASS is particularly smooth running and extremely wear-resistant, due to:

- sintered steel insert in the joint area
- permanent threaded connection of the joint area with stable stud bolt
- stainless steel panel over the joint for protecting the spring beneath from dirt
- special spring material which enables more than 620,000 strokes

Cut test in stainless martensitic chromium steel 1.4034 (X46Cr13), sheet thickness 1,2 mm

BESSEY D39ASS

◀ Wear in the joint area
after 10,000 cuts

Wear in the joint area
after 2,000 cuts ▶
